

HURRICANE DEDUCTIBLE

Refer to Declarations or Supplemental Declarations if information is not shown in this form.

This endorsement becomes part of *your* policy and is subject to the *terms* contained in the General policy Provisions.

This deductible applies to **Category 2 Hurricanes**, or greater, as defined in this endorsement. The deductible percentage will be applied to the amount of insurance shown for Coverage A, B or C, which ever is greatest.

We will deduct _____ percent of the amount of insurance for Coverage A, B or C, as is applicable, to each covered claim for loss or damage in any one *occurrence*.

The deductible applies regardless of other causes or events that contribute to or aggravate the loss, whether such causes or events occur in the twelve hour period before, contemporaneous with or in the twelve hour period after a loss caused by a **category 2 hurricane** or greater. This deductible applies separately to each residence if this policy covers more than one residence.

DEFINITION

Category 2 hurricane means a cyclonic windstorm of tropical origin with winds of 96 miles per hour or greater as set out by the Saffir/Simpson Hurricane Scale. Those winds must be confirmed by the National Weather Service at a landfall in this state. Category 3, 4 and 5 hurricanes, as delineated by the Saffir/Simpson Scale, are hurricanes with winds of greater velocity than that shown above for a **category 2 hurricane**.
